Honey Brook Fire Company EMS

Dear Friends and Neighbors,

Honey Brook Fire Company EMS thanks you for your generous support over the past years. We depend on you. It is with your continued support that we are able to provide superior emergency medical services. By donating now, you will not only be supporting our ability to provide pre-hospital care, but also ensuring that you will not incur a bill that may go uncovered by your insurance provider.

As a non-profit organization, Honey Brook Fire Company EMS prides ourselves in bringing our residents, businesses, and those who pass through, the highest quality pre-hospital care available. As you know, we respond to medical emergencies in Honey Brook Borough, Honey Brook Township and part of West Nantmeal Township in Chester County, as well as parts of Caernarvon and Salisbury Townships in Lancaster County. These 911 emergencies are handled by a dedicated and highly-trained team of volunteers and career professionals.

We understand that these financial times are tough for you; they are for us as well. We are still seeing a yearly increase in the number of emergency calls that we are responding to, and yet we are seeing a decrease in the payments that we receive from Medicare and the private insurance companies. As our community continues to grow, the demand for our service also grows. Please help our organization continue to meet those needs through your support of an annual membership.

Thank You!
Honey Brook Fire Company EMS
